

Gratification Goal Setting

If you truly want to inspire yourself, everyone around you, and especially women in the near future, then use your time alone after the breakup to hone in on your existing skills, or develop new ones. Focusing on gratifications isn't always easy, but it's worth it. Rate the impact a gratification would have once you would hone in on it frequently. Rewards come in many forms. Passion. Fun. Social status. Pride. Self-Love.

In short, which gratifications turn you into a man that you can be proud of? Pick a gratification to embody as a new part of your identity and transform yourself into that man. Go easy on yourself and don't pick a gratification with the lowest reward score / the highest difficulty level. **Get in some wins to build up momentum!**
